研究課題		he Importance of Japanese Studies Courses for the study of the Japanese Language
報告の概要	研究目的及び研究概要	I am researching the following topic and if my proposal is accepted I hope to present my research at the 30th Annual JUSTEC 2018 on 9/16. I think Japanese studies courses are important for the study of the Japanese language. One reason is Japanese has some very distinctive interpersonal language characteristics, that can be easily misconstrued in a conversation between a Japanese native speaker and a person who is a non-Japanese foreign language learner. Basically language learning is closely tied to learning about the target culture. In conclusion, if language is an integral part of culture then the teaching of culture can lead to “success in language learning”(2008, Hsin Chia-Lin)
	研究成果	My proposal for the 2018 JUSTEC conference will be decided on May 15 th .

研究活動 ・ 雑誌論文 著書名・論文表題・雑誌名・査読の有無・巻・発行年・頁数 ・ 学会発表 発表者名・発表表題・学会名・発表年月日・場所 ・ 図書 著書名・出版社名・署名・発行年・総頁数	During 2016 since I was in the hospital from 9/2016 until the beginning of 1/2017. Because of that I was unable to carry out any research in 2017, but I did publish a paper based on my 2014 JALT poster presentation. My paper was published in the On CUE Journal in 2016. As mentioned above because I was in the hospital from 9/2016 until the beginning of 1/2017. Because of that I was unable to carry out any research in 2017. Now that I have recovered I have sent a proposal to present my research at the 30th Annual JUSTEC Conference in September of 2018.
