Additional info

1. We are launching a project team that consists of students whose native language is Japanese and other languages (but not English) and a teacher whose native language is English. The team's target score is 79 on the TOEFL iBT within this year.
2. Just imagine a group of people in a company that is targeting a profit of \$7,900,000.
3. We are going to target the score of 25 and over on the TOEFL iBT writing section. Each student will present his or her draft to all members and we will discuss it very hard so that the writing will be enough for full score. The discussion will be several hours long with sometimes very frank and harsh comments. Those who are determined to be trained hard through this kind of group work are welcome. Your essay will be critically considered from every aspect so that your essay will be clear, coherent, logical, persuasive, and good enough to achieve the score of 25 out of 30.
4. The whole session will be held in English. You can hardly use Japanese. This is a good environment for those who want to keep their English proficiency after studying abroad and those who are going to study abroad in the future. They can benefit from this opportunity.
